Carpal Tunnel Quiz

What is one of the main symptoms of Carpal Tunnel Syndrome?

1 of XX

Correct XX

Numbness in fingers

Correct!

The median nerve runs from your forearm to the palm of your hand. Carpal tunnel syndrome occurs when this nerve is squeezed (compressed) as it passes through the carpal tunnel. This compression can cause numbness in your thumb and the 3 middle fingers of your hand. Sweaty palms, finger stiffness, and hand tremors are not symptoms of carpal tunnel syndrome.

Quiz "unit"

Answer "module"

Ad "module"

Widget state **AFTER USER ANSWERS A QUESTION:**

- Title Module:
 - Size / dimensions need to accommodate titles of different lengths owing to word count differences of various quizzes (we need to standardize on 2 different title module dimensions) – we'll standardize on just the topic and the word "quiz", but the topics root state can vary in length.
- Question Module:
 - Same as above re need to accommodate questions of different lengths.
- Answer Module:
 - Fixed dimension
 - Counters:
 - Left: current question # of total # of questions (location in quiz)
 - Right: # of correct answers
 - "Next" button:
 - **QUESTION: DO WE NEED A "NEXT" BUTTON ON THE FIRST QUESTION? I DON'T THINK WE DO.**
 - If yes, then it remains fixed in that location in this state: **before any user engagement.**
- Ad Module:
 - Fixed dimension

Title "module"

Question "module"

Quiz "unit"

Answer "module"

Ad "module"

Remains fixed

1. Collapses leaving the "counters", "correct" or "incorrect" answer in the Answer Module

2. Answer buttons change background and text colors when selected: when "correct", it goes to green w/black text; when "incorrect", it goes red w/white text.

3. "Long form" answer appears beneath the Question Module. Text size increases / decreases automatically to occupy space where Ad Module was.

4. "Next" button appears beneath the explanation / "long form" answer. It needs to "follow" the text up or down depending on length – set a fixed distance from the bottom of the text; "long form" answers need a max not too exceed length.

1. Disappears and space filled by "long form" answer / explanation
2. Ad module reappears when "Next" button is pressed.
